## Ideas for Group Project

1. Calendar Mobile Application
  - a. Using Flutter to create and deploy application on all platforms
2. Note-Taking Mobile Application
  - a. Using Flutter to create and deploy application on all platforms
3. Game Development, archery or other simple game app
  - a. Unity game engine
4. Website
  - a. Google Sites, Wordpress, Wix, Weebly or other website builder. Solves some sort of problem, maybe even replacing a service like Buff Portal or scheduler for classes. Alert students when grades are dropping. Maybe even music recommendation algorithms. Some type of tracker or data collector that is able to display happy hours around town.
